

HIGHLIGHTS + FEATURES

Take a look at our highlight list below (also available in PDF), demonstrating the wide range of improvements and new features that appear in SIMSOL 7.0.

- Added SIMSOL ClipBoard™ Integration
 - Simsol 7.0 fully integrates with SIMSOL's new mobile device app, SIMSOL ClipBoard™ (CB). Users download claims to the CB app to record voice notes, photos, and other field data to complete preliminary inspection reports and forms, such as the forms of the NFIP. Collected field data is uploaded to the SIMSOL Cloud for downloading to SIMSOL 7.0
- Added New [Complete Building Repair Registry](#)
- Added Ability to Exclude Attachments from Archive(s)
- Improved Autoupdater (Improved Version Tracking)
- Improved ClaimsWire Uploader Tool
- Improved Warehouse Uploader Tool
- Digital Photos Improvements:
 - Bulk Rename Functionality (Allows for Renaming of Multiple Images At Once)
 - Improved Sorting Functionality (Allows Moving Multiple Images At Once)
 - Improved General Navigation for Single Image View Section
- Updated Forms (Added Pre/Post FIRM and Date of Substantial Improvement to wizard)
- Fixed Arizona Privilege Tax (APT) Area Calculations on Detailed Summary Printout
- Fixed Date Stamp on Printouts for Forms with Blank Dates
- Moved R&R Scope Option from Drawer Preferences to VSS Preference (Maintain\Preferences\Virtual Scope Screen)

MORE INFORMATION

SIMSOL 7.0 is extremely well-documented and, as always, easy-to-use. Please find the following documentation and training options that will get you started using Simsol 7.0 right away and do not hesitate to contact us with any questions you may have. As always, we remain, Flood Strong™!
